

Schneider Electric team creates difference in Marine Support

Intervention at Port Rashid, Dubai
on Queen Elizabeth 2

PEC- Services team creates difference in Marine Support

Customer needs

- Quick intervention onboard QE2 at Dubai prior class inspection
- Reliability & Safety - Survey and maintenance on her HV switchboard and protections prior sailing
- Survey and maintenance on competition products also
- No competence available locally in Dubai

Customer benefits

- Customer uses International marine support contact in France as Single point contact
- SEI provided online support within 3 days in Dubai
- Seamless execution by SE India at Dubai
- Single vendor capable to undertake entire requirement in short time
- No dependence on local contractor

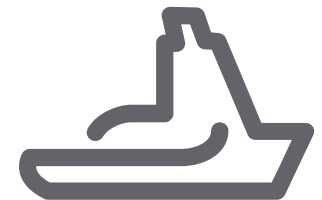

QE 2 : Queen Elizabeth 2 built in 1969 was in service for 40 years and travelled across the world. After retiring from active service in 2008, QE2 is presently owned by Nakheel Property Dubai.

Indian Marine organisation is geared to take up the challenges in Marine Business for Indian and International customers

SE Solution

- Preventive Maintenance Contract
- Global marine services support for ships deployed across the oceans
- Reliability and safety of distribution network and protections
- Optimization in costs and time

Thank you
